Job Title : React native developer

Designation : Senior Developer

Experience : 1 to 2 years

Age : 25-31

Salary Range : 70,000

Vacancy : 4

Posted Date : 24-06-2025

Last Date to Apply : 06-07-2025

Job Summary:

We are seeking a highly skilled and motivated **React Native Developer** to join our mobile app development team. The ideal candidate will be responsible for designing and building advanced mobile applications for iOS and Android platforms using React Native. You will work closely with product managers, designers, and other developers to create high-performance and visually engaging applications.

Key Responsibilities:

Develop cross-platform mobile applications using **React Native**.

Write clean, maintainable, and efficient code.

Collaborate with UI/UX designers to implement designs accurately.

Integrate REST APIs, third-party services, and SDKs.

Ensure the performance, quality, and responsiveness of applications.

Debug and resolve technical issues and bugs.

Participate in code reviews and contribute to continuous improvement.

Stay updated with the latest mobile development trends and best practices.

Work in an Agile/Scrum environment with daily stand-ups and sprint planning.

Requirements:

Proven experience in **React Native development** (2+ years preferred).

Strong proficiency in **JavaScript/TypeScript**.

Experience with mobile app deployment on both **App Store and Google Play**.

Familiarity with **Redux, Context API**, or similar state management tools.

Knowledge of native development (Swift, Objective-C, Java, Kotlin) is a plus.

Understanding of **mobile performance optimization** and security practices.

Experience with version control systems (e.g., **Git**).

Strong problem-solving and communication skills.

Bachelor's degree in Computer Science, Software Engineering, or related field (preferred).
