Job Title :	Laravel developer
Designation :	Junior Developer
Experience :	1 year experience
Age :	20-27
Salary Range :	30,000
Vacancy :	3
Posted Date :	24-06-2025
Last Date to Apply :	07-07-2025

Job Summary:

We are seeking a **Junior Laravel Developer** with around **1 year of hands-on experience** to join our growing development team. The ideal candidate will have a foundational understanding of the Laravel framework and PHP development, and a passion for learning and improving. You will assist in developing web applications, troubleshooting issues, and supporting senior developers on ongoing projects.

Key Responsibilities:

Assist in developing web applications using **Laravel** and **PHP**.

Write clean, maintainable, and well-documented code.

Work with databases such as **MySQL** to design and manage data models.

Support the development team in testing and debugging applications.

Help create and maintain **RESTful APIs** for mobile and web integrations.

Work collaboratively with designers and senior developers to implement new features.

Participate in daily stand-ups, team meetings, and code reviews.

Perform basic maintenance and updates on existing Laravel applications.

Requirements:

1 year of experience working with **Laravel** (internship/freelance work will be considered).

Basic understanding of **OOP** and **MVC architecture**.

Familiarity with front-end technologies: **HTML, CSS, JavaScript**.

Knowledge of **MySQL** or similar relational databases.

Familiarity with version control systems, especially **Git**.

Ability to troubleshoot and debug common development issues.

Eagerness to learn and adapt to new technologies and frameworks.
