Job Title : Vue JS developer

Designation : Internee

Experience : 6 months

Age : 20-25

Salary Range : 15,000-20,000

Vacancy : 3

Posted Date : 24-06-2025

Last Date to Apply : 07-07-2025

Job Summary:

We are looking for a passionate and motivated **Vue.js Developer Intern** with up to **6 months of hands-on experience** to join our development team. This is a great opportunity to enhance your skills in front-end development by working on real-world projects and learning from experienced professionals.

Key Responsibilities:

Assist in developing responsive web interfaces using **Vue.js**.

Support the development team in coding, testing, and debugging web applications.

Implement user interface components based on wireframes and mockups.

Collaborate with designers and backend developers to integrate APIs and services.

Write clean, modular, and maintainable code.

Learn and follow best practices in web development and project workflows.

Participate in code reviews and team meetings.

Requirements:

Basic working knowledge of **Vue.js**, **JavaScript**, **HTML5**, and **CSS3**.

Familiarity with **Vue CLI**, **Vue Router**, or **Vuex** is a plus.

Understanding of responsive design and browser compatibility.

Some experience with consuming **RESTful APIs**.

Knowledge of **Git** or any version control system.

Good communication skills and willingness to learn in a team environment.
