Job Title: Junior Web Developer

Location: [Peoples colony 2, Faisalabad]

Job Type: Full-time

Department: IT / Development

Job Summary

We are seeking a motivated and detail-oriented **Junior Web Developer** with a foundational understanding of **HTML, CSS, and PHP Laravel**. The ideal candidate should have a passion for web development, a willingness to learn, and the ability to support the development team in creating, maintaining, and enhancing web applications.

Key Responsibilities

Assist in the design, development, and maintenance of web applications using **Laravel framework**.

Write clean, efficient, and well-documented code using **HTML, CSS, and PHP**.

Collaborate with senior developers and designers to implement user-friendly and responsive web designs.

Perform basic debugging and troubleshooting to ensure smooth functionality.

Support in integrating third-party APIs and services.

Participate in code reviews and contribute to improving coding standards.

Stay updated with the latest web development trends and best practices.

Provide technical support for website-related issues when required.

Qualifications & Skills

Basic knowledge of **HTML5, CSS3, and PHP (Laravel framework preferred)**.

Understanding of responsive design and cross-browser compatibility.

Familiarity with databases (MySQL or similar).

Strong problem-solving skills and attention to detail.

Ability to work in a collaborative team environment.

Eagerness to learn and adapt to new technologies.

Education & Experience

Bachelor's degree in **Computer Science, Software Engineering, IT**, or a related field (or equivalent practical experience).

Internship or academic project experience with **Laravel** will be a plus.
