Job Title: Junior Laravel Developer

Location: Faisalabad

Job Summary:

We are seeking a **Junior Laravel Developer** to join our development team. The ideal candidate will assist in building, maintaining, and enhancing web applications using the **Laravel PHP framework**. This is an excellent opportunity for someone eager to grow their backend development skills in a collaborative and learning-oriented environment.

Key Responsibilities:

Assist in developing and maintaining web applications using the Laravel framework.

Write clean, efficient, and well-documented code under the guidance of senior developers.

Collaborate with designers and front-end developers to integrate user-facing elements with server-side logic.

Participate in code reviews and follow best practices in coding and version control.

Test and debug applications to ensure optimal performance and user experience.

Stay updated with the latest Laravel features, PHP updates, and industry trends.

Support the team in database design, API integrations, and deployment processes.

Requirements:

Bachelor's degree in **Computer Science, Software Engineering**, or a related field (or equivalent practical experience).

Basic understanding of **PHP, Laravel Framework, MySQL, HTML, CSS, and JavaScript**

Familiarity with **RESTful APIs** and third-party integrations is a plus.

Knowledge of **Git** or other version control systems.

Strong problem-solving skills and attention to detail.

Eagerness to learn and ability to work effectively in a team environment.
